

## THE **MEDCALL/CHURCHWEST** COVID-19 SCREENING RESOURCE FOR MINISTRY “LIMITING EXPOSURE, PROTECTING THE KINGDOM, AND PREPARING FOR THE FUTURE”

ChurchWest Insurance Services, in partnership with MedCall Healthcare Advisors is launching a Coronavirus (COVID-19) screening and accountability resource for churches, universities, schools, camps, missions and special events to assist ministries in navigating the many obstacles associated with this Pandemic including but not limited to the economic impact to your ministries *and* limiting the spread of COVID-19 within our communities.

### This is how it works:

1. The screening portion is free, unlimited and involves a series of nine (9) questions to determine your risk/exposure level of the COVID-19 virus.
  2. Those not at risk/exhibiting symptoms are advised they are not at risk, return if anything changes and can download a transcript of the screening to demonstrate they have been screened, if desired.
  3. **Those at risk & exhibiting symptoms will have the option to immediately connect via telephone/video conferencing to a Physician that is Board Certified in Emergency Medicine and trained to address COVID-19 pandemic to complete a Covid-19 evaluation and medical consultation.** Presently, less than 2% of screenings are referred. **\*\*If you agree to be directed to a MedCall Physician for consultation, there will be a one-time charge for that consultation of \$105.** To protect yourself and limit the spreading of this virus, we strongly encourage those referred to the MedCall Health Physician do so to limit exposure/spreading the virus. The cost of the Physician consultation may be reimbursed by your healthcare provider.
  4. **Those advised by the screening Physician to be tested for COVID-19 will be given an order from the Physician authorizing the test and you will be directed to the Department of Health and Human Services (DHHS) office in your county for instructions on where to go to be tested.** Those who connect with the Medcall Health Physician that are not sent to be tested or are asked to self-quarantine will be advised to call back if symptoms worsen at no additional cost.
- This process and invaluable resource can help protect your ministries and prevent those who may have been exposed/exhibiting symptoms from infecting others by going into public places or seeking medical attention at random hospitals, urgent care centers or doctor's offices.
  - The MedCall/ChurchWest program operates in connection with the Center of Disease and Control (CDC). Personal information and medical data collected is NOT sold or shared. \*Number of screenings and geographical region of the screening is communicated to CDC to assist them in their education and containment of the virus.
  - In summary and as a service to ministries, we are providing free and unlimited exposure screenings and if directed due to your exposure level or symptoms, be connected with a physician who can order a COVID-19 test if needed and direct you (through your local DHHS office) on where to go to be tested, treated, and how to limit spreading the virus.
